

PANKAJ SINGH

FULL STACK DEVELOPER

+9917167005 | anaarwala, dehradun | <https://www.linkedin.com/in/pankaj-singh-jethi/> | pjethi292@gmail.com

ABOUT ME

Full Stack Developer with hands-on experience in building scalable web and mobile applications using React, Next.js, React Native, Express.js, PostgreSQL, MongoDB, and Redis. Currently working at DigiYuni, where I have developed multiple production-ready platforms including storytelling apps, learning systems, quiz applications, and music streaming apps.

Strong experience in REST API development, database design, state management (Redux Toolkit, Zustand), and deployment on VPS with Nginx and PM2. Adept at collaborating in team environments, solving real-world problems, and continuously learning modern web technologies. Passionate about building high-performance, user-focused products.

WORK EXPERIENCE

DIGIYUNI

2024-NOW

FULL STACK DEVELOPER

- Developed Suno Kahaniyan, a storytelling platform using React, Zustand, Express.js, PostgreSQL, Redis (local), and Cloudflare R2, serving audio and ebook content (<https://sunokahaniyan.com>).
- Built TechYuni, a learning platform using Next.js (Tailwind CSS), MongoDB, Redis Cloud, Redux Toolkit, and Gemini API for AI-powered features (<https://techyuni.com>).
- Created Namu Music App, a cross-platform music streaming application using React Native, Express.js, PostgreSQL, and Redux Toolkit.
- Developed TBPS Quiz App with Next.js frontend and Express.js backend, supporting both web and mobile platforms (<https://education.tbpsngo.org/home>).
- Built and deployed Suno Kahaniyan Android & iOS apps using React Native, integrated with backend APIs and cloud media storage (<https://play.google.com/store/apps/details?id=com.sunokahaniyan>).
- Worked on production deployments using VPS, Nginx, PM2, and Git-based workflows.
- Developed and maintained user-facing interfaces using React.js, Next.js, and React Native for multiple production applications.

TETRA INFORMATION SERVICES PVT LTD

2023-2024

Web Developer

- Developed and enhanced frontend features for company websites using HTML, CSS, JavaScript, and React.
- Designed and developed the complete frontend for zuhuas.org, focusing on clean UI, responsiveness, and performance.
- Collaborated with backend developers to integrate frontend with APIs.
- Contributed to multiple live projects while maintaining code quality and consistency.
- Debugged and resolved UI-related issues in live production environments.
- Improved user experience by optimizing page layouts and navigation flow.
